## OUR REVOLUTIONARY DELIVERY SYSTEM

### Zallevo Bioabsorption™ Technology

Zallevo™ products are revolutionary because they are infused with Zallevo Bioabsorption™ Technology (ZBT™). ZBT™ is a proprietary technology that uses a liposome delivery system which surrounds and protects vital nutrients ensuring they get past the harsh environment of the stomach. Once past the stomach, ZBT™ also has specific Enzymes to maximize the absorption of our unique nutrients.

Other products may have great nutrients, however, the greatest nutrients have little effect if your body can't absorb them. ZBT™ unlocks the full benefits of each nutrient, and gives you the peace of mind that nothing is going to waste!

No other product or company uses Zallevo Bioabsorption™ Technology!
