Qualification Criteria Part 2

- BONUS! If you met the qualification criteria in December of 2020, we will count December as your first qualifying month! You will have until June to meet the qualification criteria.

- For those who have already attended the Mission trip can re-addend when paid as PL+ 5 consecutive months 1 trip per year.

- If an enrollment refunds it will not count as a qualifying enrollment, because of this we recommend overbuilding and exceeding minimum qualification criteria.

- Grandfather Clause: If you have at least one qualifying month at the end of 2021 going into 2022, then the qualification criteria of 2021 will hold true. Meaning if qualification criteria changes in 2022, your eligibility to qualify is still based off of 2021 qualification criteria.

Frequently Asked Questions (F.A.Q.'s)

Q: Do the 3 months need to be consecutive?
A: No. So long as you paid as PL+ and have the required qualifying enrollments then as long as you meet the qualification criteria during your rolling 6 month qualifying period, it does not need to be consecutive.

Q: If I don't qualify for all 3 months during my first 6 months after being paid as PL+ can my 6 months start over with the next time I am paid as PL+?
A: Yes.
Example: Mary is paid as PL January, and is not paid as PL again until June. Her rolling six month clock would start over beginning with June. So if she were to be paid as PL and have the qualifying enrollments in July and August in addition to her qualifying in June then she could qualify to attend in April of 2022.

Q: What if I am paid as PL+ but I do not have 3 qualifying (200 PV + VV) enrollments in the same month? Can I still qualify?
A: You can still qualify so long as you have at least 3 paid as PL+ months and 15 cumulative qualifying enrollments during your rolling 6 month period.
